

RE-TIRE RECYCLED RUBBER ROLLS AND TILE LEED CREDITS

Re-tire colors have various amounts of recycled post-consumer and post-industrial waste. Listed below are the individual colors and percentages (listed by weight) of both post-consumer and post-industrial waste of all three of The Re-tire collections. Re-Tire is manufactured in Delphos, OH.

AFTER DARK

90% post-consumer waste

NIGHT CORK

85.5% post-consumer waste

4.5% post-industrial waste

AFTER GLOW, BLACK EARTH, BLACK FOREST, BLACK TIE, BLUE MOON, FIREGLOW, HOT COALS, MOON ROCKS, NIGHTLIGHT, SPACE ODYSSEY, STARRY NIGHT, SUNSPOTS, TWILIGHT ZONE

72% post-consumer waste

6.3% post-industrial waste

BLACK PEARLS, CELEBRATION, LATTE, RED PLANET

63% post-consumer waste

9.5% post-industrial waste

CRIMSON, DEEP BLUE SEA, FOLIAGE, SHADOW

18% post-consumer waste

25.5% post-industrial waste

MUSHROOM, QUARTZ, SAGE, STORM, TRAIL MIX

13.5% post-consumer waste

26.8% post-industrial waste

ARCTIC

9% post-consumer waste

28.4% post-industrial waste

CHUTNEY, FOSSIL, HEMP, RAIN, SHALE, STEEL

4.5% post-consumer waste

29.9% post-industrial waste

Capri's Re-tire can contribute to LEED credits in the following areas.

MATERIALS & RESOURCES

MR4.1: Use materials with recycled content such that the sum of the post-consumer recycled content plus ½ post-industrial recycled content constitutes at least 5% of the total value of the materials in the project. (1 point)

RE-TIRE RECYCLED RUBBER ROLLS AND TILE LEED CREDITS

MR4.2: Use materials with recycled content such that the sum of the post-consumer recycled content plus ½ the post-industrial recycled content constitutes at least 10% of the total value of the materials in the project. (1 point)

MR5.1: Use of a minimum of 20% of building materials and products that are manufactured regionally within a radius of 500 miles. Re-Tire is manufactured in Delphos, OH. (1 point)

MR5.2: Of the regionally manufactured building materials in Level 1, use of a minimum of 50% of building materials (raw materials) and products that are extracted, harvested or recovered (as well as manufactured) within a radius of 500 miles. Re-Tire is manufactured in Delphos, OH. (1 point)

INDOOR ENVIRONMENTAL QUALITY

IEQ4.1: The VOC content of adhesives and sealants used must be less than the current VOC content limits of South Coast Air Quality Management District Rule #1168 and all sealants used as filters must meet or exceed the requirements of the Bay Area Air Quality Management District Regulations 8, Rule 51. (1 point)

Capri offers a polyurethane finish option for Re-Tire which is a no wax finish and does not need to be annually stripped and recoated. If this finish is used, Re-Tire can contribute to the following credits.

WATER USE REDUCTION

WE3.1: Employ strategies that in aggregate use 20% less water than the water use baseline calculated for the building (not including irrigation) after meeting the Energy Policy Act of 1992 fixture performance requirements. (1 point)

WE3.2: Employ strategies that in aggregate use 30% less water than the water use baseline calculated for the building (not including irrigation) after meeting the Energy Policy Act of 1992 fixture performance requirements. (1 point in addition to WE3.1)
